

SENIOR STRUCTURAL ENGINEER (E5)

This is virtual position with occasional in person meetings. Must be within driving distance of Denver, Colorado or willing to relocate. Regional relocation allowance available.

Is life/work balance important to you? Do you like working remotely? Are you a seasoned structural engineer passionate about vertical construction? Do you enjoy working with coworkers who have a sense of humor? Does leading a team in commercial projects excite you?

If you said yes to any of the questions, then please read on!

COMPANY INTRODUCTION

Integral Engineering Co. is a Denver, Colorado based professional engineering company with success in a diverse array of projects over the past 15+ years. Our woman owned business is small, flexible, and fun. We save time and money by leveraging an inside view of fabrication and erection processes. As we apply our expertise, we clear the path for contractors by creating designs that aren't only sound, but constructible. Responsiveness and accessibility are paramount to our process.

SUMMARY OF RESPONSIBILITIES

The Structural Engineer is a valued position at Integral Engineering Co. A successful person in this role will not only lead a team of engineers and drafters, but also handle client interactions, whether this is a building owner, Architect, or even another Engineering firm.
